

# SEED SHUTTLE SS290

Heavy duty trailer option

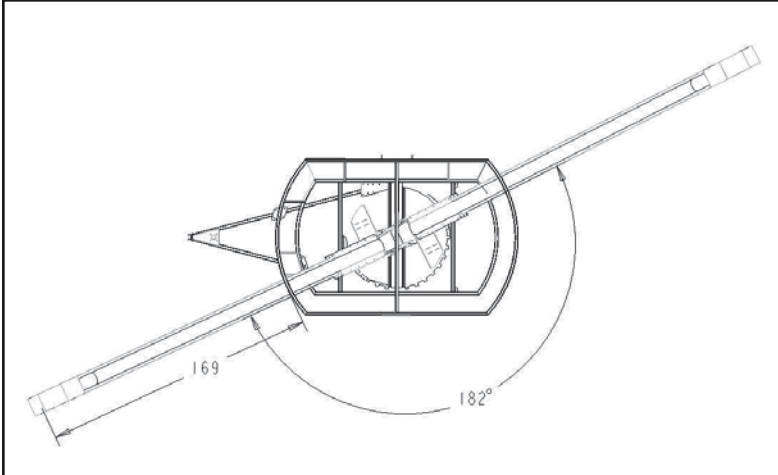

2 - 145 unit poly tanks with independent slide controls

## ***The Future of Seed Tenders is Here!***

The all ***NEW SEED SHUTTLE SS290*** is the first all non-corrosive poly tank Seed Tender on the market today. It has unique features such as both side and rear discharge unloading positions, and a heavy duty frame designed for tough commercial and farm use. In addition to easy seed handling, you will soon be able to use your ***SEED SHUTTLE SS290*** as a water tank as well... making it the most versatile tender on the market.
